Date: June 2011

Publication: Logistics Manager

Frequency: 11 Issues a year

Circulation: 11,743

New: WMS in the cloud

@Logistics Reply has launched SideUp Reply, a software-as-a-service product based on the Click warehouse management system. It offers full WMS functionality and support for printers, radio frequency, and voice recognition, all delivered via the web. Demonstrations will be available of both Click Reply and SideUp Reply.
