THE STATE OF ART

Challenges & Limitation

OVERVIEW

With more data coming into the business landscape, organizations need the right tools to help them find new growth opportunities, solving key challenges. The importance to gather data, even real time in a seamless and fast provisioning fuel the decision maker to reach out solutions scalable, flexible and with limited constraints.

MOST COMMON CHALLENGE & LIMITATION OF BI TOOLS

Cost licensing

Limited data visualization capabilities

Lesser synergies with O365 Workplace

A lot of maintenance and support

Requires more time for recovery

Limited possibilities of self BI

BUSINESS GOALS

Why businesses should rely on Power BI?

USER EXPERIENCE

Office-like interface, intuitive and ready to use, simple tool literacy.

DEPTH OF ANALYSIS

The out of the box tool, guarantees a data discovery at different levels following the user's needs and allowing a flexible use of data regardless of the level of preparation of the user.

PERFORMANCE

It is a scalable solution that supports large amounts of data. Allowing rapid analysis of large data volumes.

INTEGRATION & COLLABORATION

It is natively integrated with other Office tools and promotes collaboration. It gives the possibility to exploit insights from different data sources by having a heterogeneity of connectors to GA, DB etc.

MIGRATION STRATEGY

A structured approach to migration

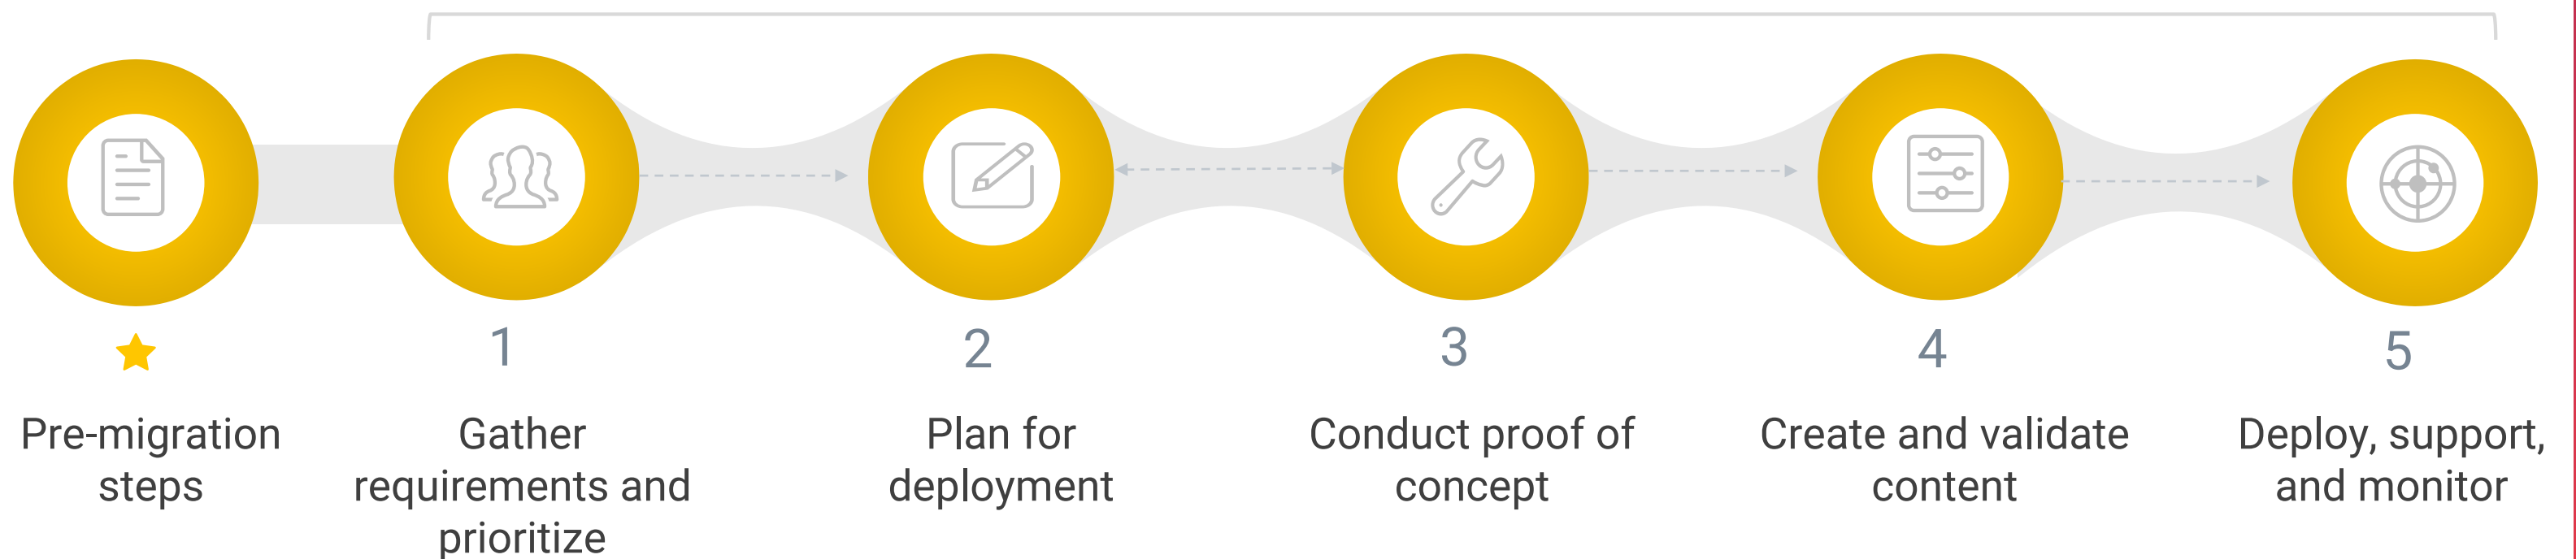

THE HIGH LEVEL PLAN

It is necessary a structured approach to revolutionize the way you rationalize your data. Choose and work side by side to find the best way to embrace this challenge is our main goal.

MIGRATION ASSETES FROM LEGACY SYSTEM TO POWERBI

 Iterate for each solution begin migration to PowerBI

MIGRATION DELIVERABLE

A structured approach to migration

TIME AND DELIVERABLE

Time is the most important asset and understand how and with who to invest it is the key to be ready to tech challenges. All the activities are designed to ensure a clear understanding of the as is scenario to create a tailor-made solution.
