

AUTOMATION AND OPTIMIZATION WORKSHOPS

CHOOSE YOUR WORKSHOP:

MS CLOUD SECURITY ENHANCEMENT

Workshop Presentation

Prioritised Recommendations

Leveraging the **MS Security Products** whilst navigating the licencing levels

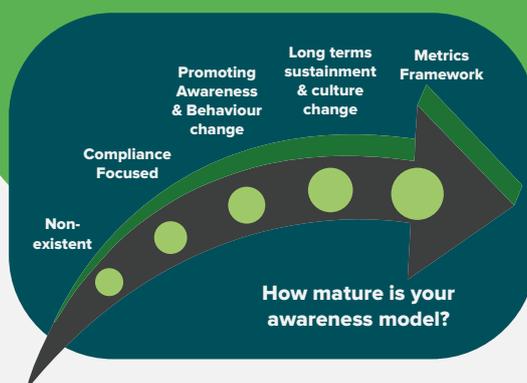

Using **tailor based** user stories to identify key security improvements

Providing **security essentials** check-ups

Prioritised recommendations and **roadmap**

SECURITY AWARENESS

Creating **security mindfulness** throughout the organisation

Understanding the organisations' approach to **staff security training**

Uplifting employees to **avoid security weaknesses**

Agree on **progression plan**

SECURITY AUTOMATION

Risk

Cadence

TCO

Analysing **current security testing procedures** to dictate where automation can assist

Enhancing capabilities to ensure compliance against company policy's and standards such as **GDPR**

Understanding of value add by using an **automated** and **agile security** testing service

AUTOMATE ANYWHERE ANYTIME

KNOWLEDGE BASED FAKE NEWS DETECTION

AUTOMATE QUICKLY AND MORE SECURELY

Empower everyone to build automated processes with flows in Power Automate. Use low-code, drag-and-drop tools and hundreds of prebuilt connectors that automate repetitive, mundane tasks with ease.

BOOST EFFICIENCY

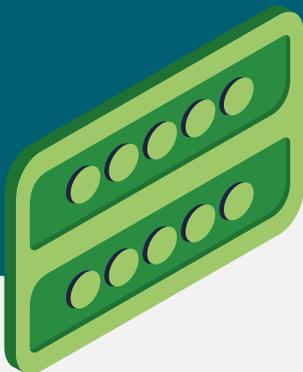

Record and visualize your end-to-end processes with process advisor, providing guided recommendations for creating flows and deep insights that take the guesswork out of what to automate.

ENHANCE WORKFLOWS WITH AI

Make your automation even smarter with **AI Builder**. Quickly process forms using document automation, process approvals, detect images and text, or create with prebuilt models.

CHOOSE YOUR WORKSHOP:

SLATE

Allowing you to bring your business processes into Microsoft Teams through custom development

FRONTLINE WORKERS

Frontline worker solutions, looking at Office 365 to build them

APPS AND SOLUTIONS

Getting the most out of your existing investment

AZURE WORKSHOP SERIES

CHOOSE YOUR WORKSHOP:

WINDOWS VIRTUAL DESKTOP

Identify the WVD use cases most valuable to your organisation

Highlight quick wins

Get a concrete plan for the adoption of WVD

Learn how to leverage your existing investments (e.g. on VDI infrastructure or on M365 licenses) for Azure based WVD workloads.

CLOUD ADOPTION

Leveraging industry-standard frameworks and best practices, in this workshop we help clients carve the optimum cloud adoption path for their business

Evaluate your options and business implications, envision and shape your future state

Develop a concrete plan, timelines, and next actions

AZURE OPTIMISATION

Get a succinct and actionable report that helps you realise efficiency and value from your Azure resources
Identify opportunities to reduce cost

Highlight security gaps

Get recommendations for operational excellence

INTEGRATION ANYWHERE

Before defining your integration strategy, it is important to consider a range of factors to develop a robust architecture design and project plan

This workshop helps you capture the relevant information

Get guidance on how best to approach integration, whether you require an on premises integration solution, consider hybrid or are looking to migrate to a full cloud integration approach.
