

Hello. Nice to e-meet you.

We're WM Reply and we create world-class intranets, collaboration platforms and business solutions built on Microsoft SharePoint and Office 365. Everything we do is about helping organisations work better, faster and smarter.

We work with organisations all around the world and have delivered measurable results to improve intranets, business processes and internal communications through technology and creative communications campaigns.

Why not take a peek at what we could do for you?

Vodafone decided to replace its outdated global intranet and appointed WM to deliver a new intranet and roll it out to 21 markets.

“

“Where other companies thought the timeline was unreasonable, WM rose to the challenge and delivered the entire roadmap on time and within budget. This outstanding delivery would not have been possible without them.”

Martin Holzberger
Principal Manager, Global Applications, Vodafone

How we work.

Communication is the key to our success.

At WM Reply, we know that understanding your needs and what you want to achieve from your technology is essential to delivering an effective intranet and business solutions that provide real results.

Our SharePoint Consultants, Project Managers and Engage Team pride themselves on building solid working relationships with you. We always keep you and your employees in mind.

Working with us.

We get to know our clients.

We'll gain a deeper understanding of what you want to achieve to create a clear brief.

We make sure you're happy with your solution.

We will undertake rigorous testing and involve you in this process so we can make tweaks and changes until you're 100% happy.

We guarantee our work.

We're so confident that you'll fall in love with your new technology that we'll even provide a 30-day warranty.

We're big on project management.

Once we have a clear understanding, we'll create your designs, solution or campaign, tailored to your requirements, within agreed time-scales and to budget.

We'll bring you and your people along for the ride.

We have a dedicated Communications and Engagement Team to ensure your employees get to grips with your new intranet or business solution. Our creative user adoption campaigns, training programmes and creative designs will convert the most reluctant employee.

We pride ourselves on making Microsoft SharePoint work for you. It's our mission to make your business run faster, more efficiently and to provide you with technology that you'll never want to live without.

We partner with our clients.

We'll work alongside you to make sure you get to grips with your new technology. You'll get to see your ideas brought to life and have a hand in the development at all stages.

We support you even when the project is complete.

We can support your intranet and business solutions after the project is complete with a variety of support solutions.

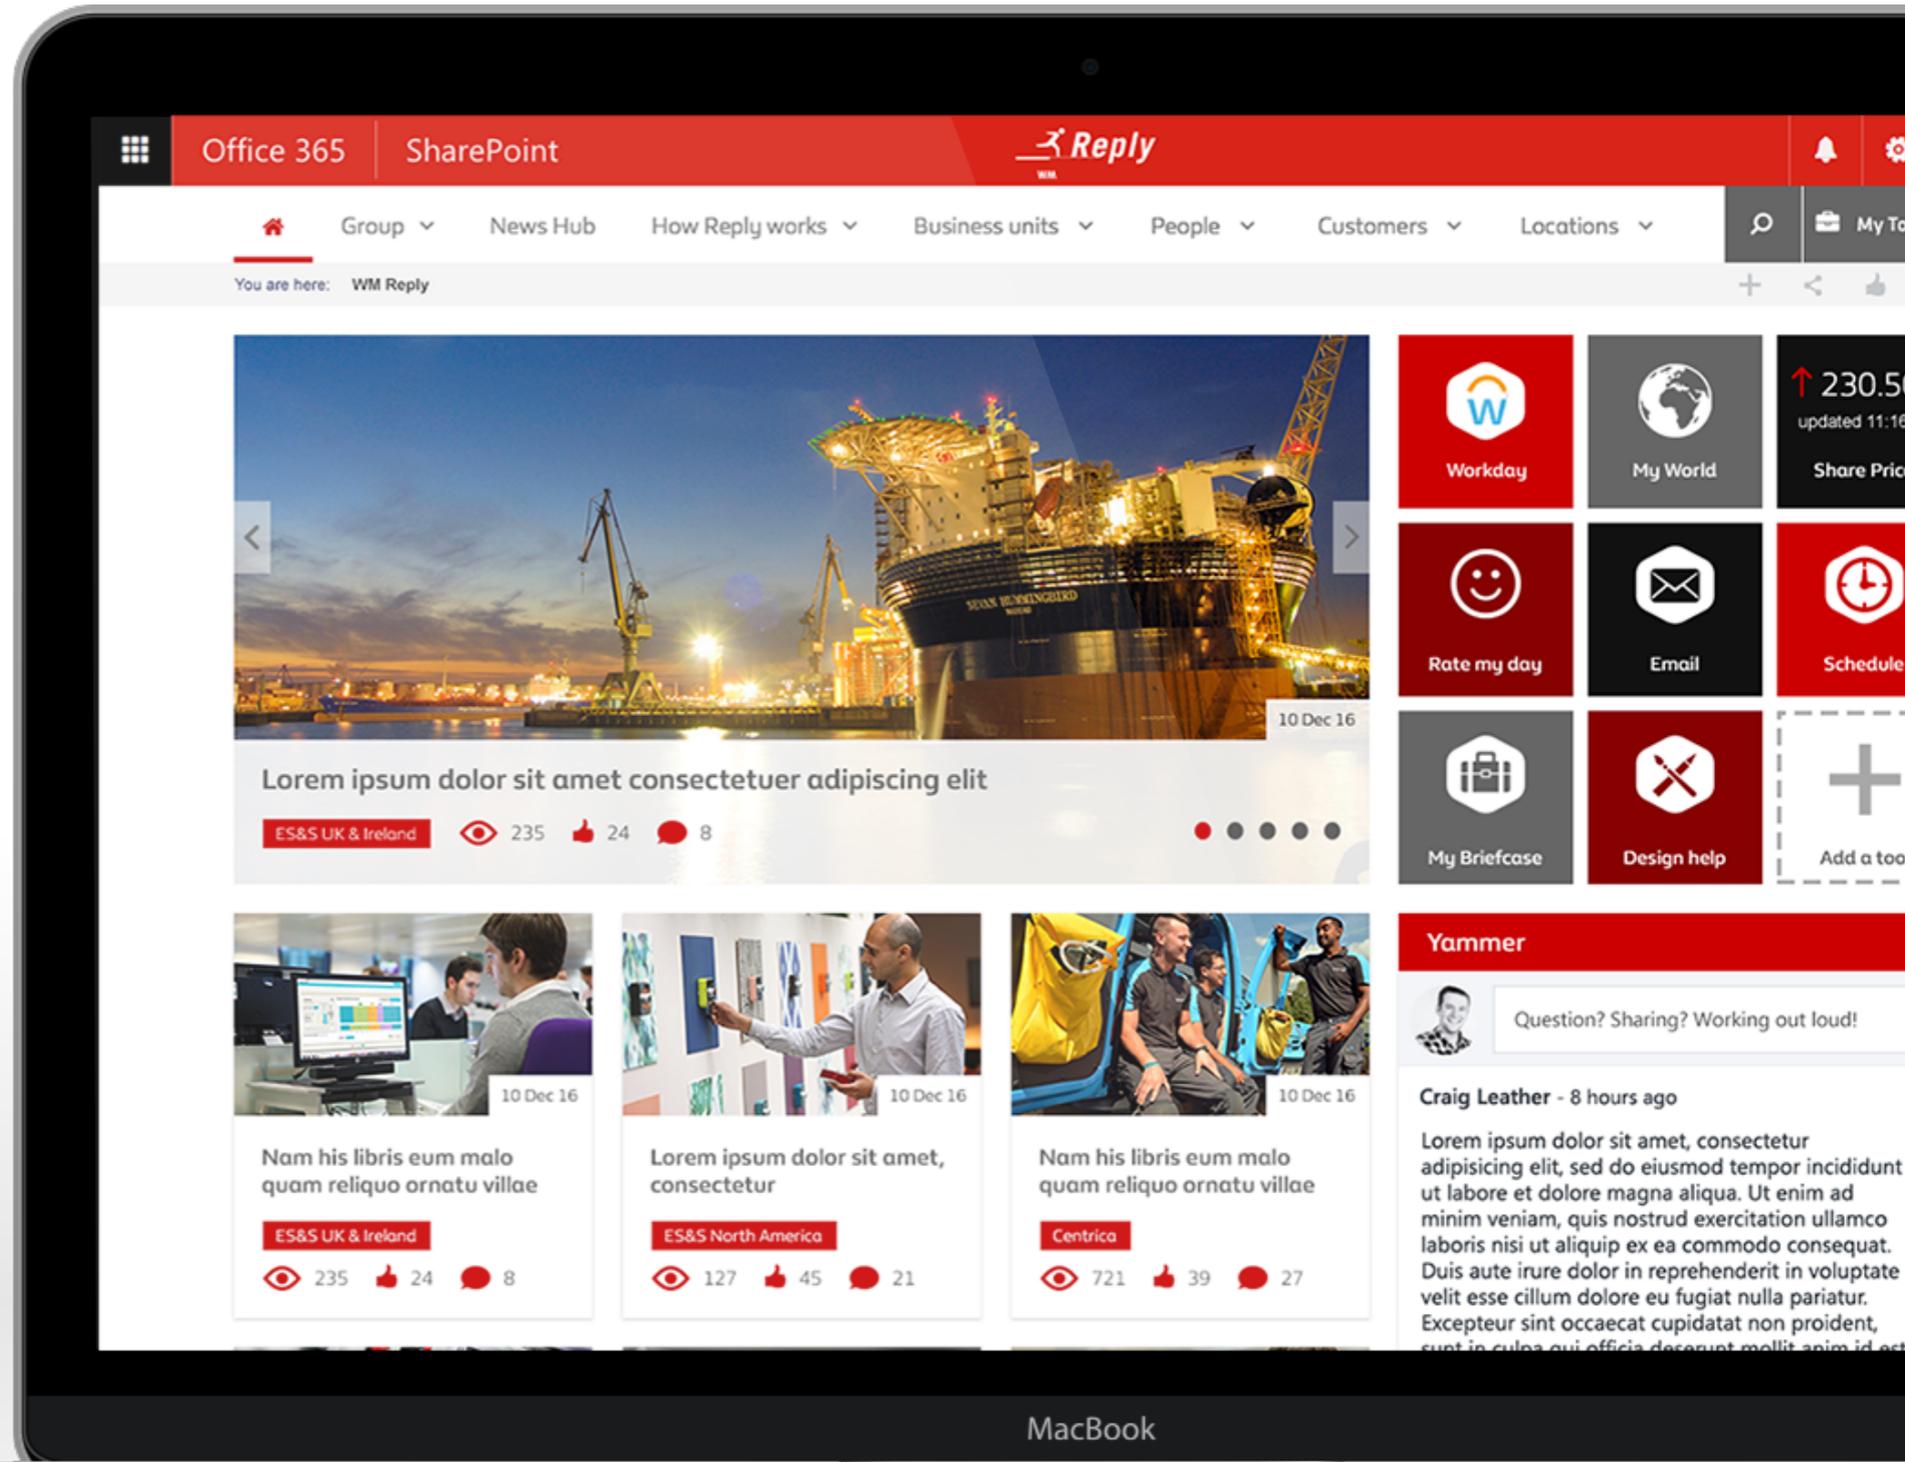

Intranets.

The heart of your company.

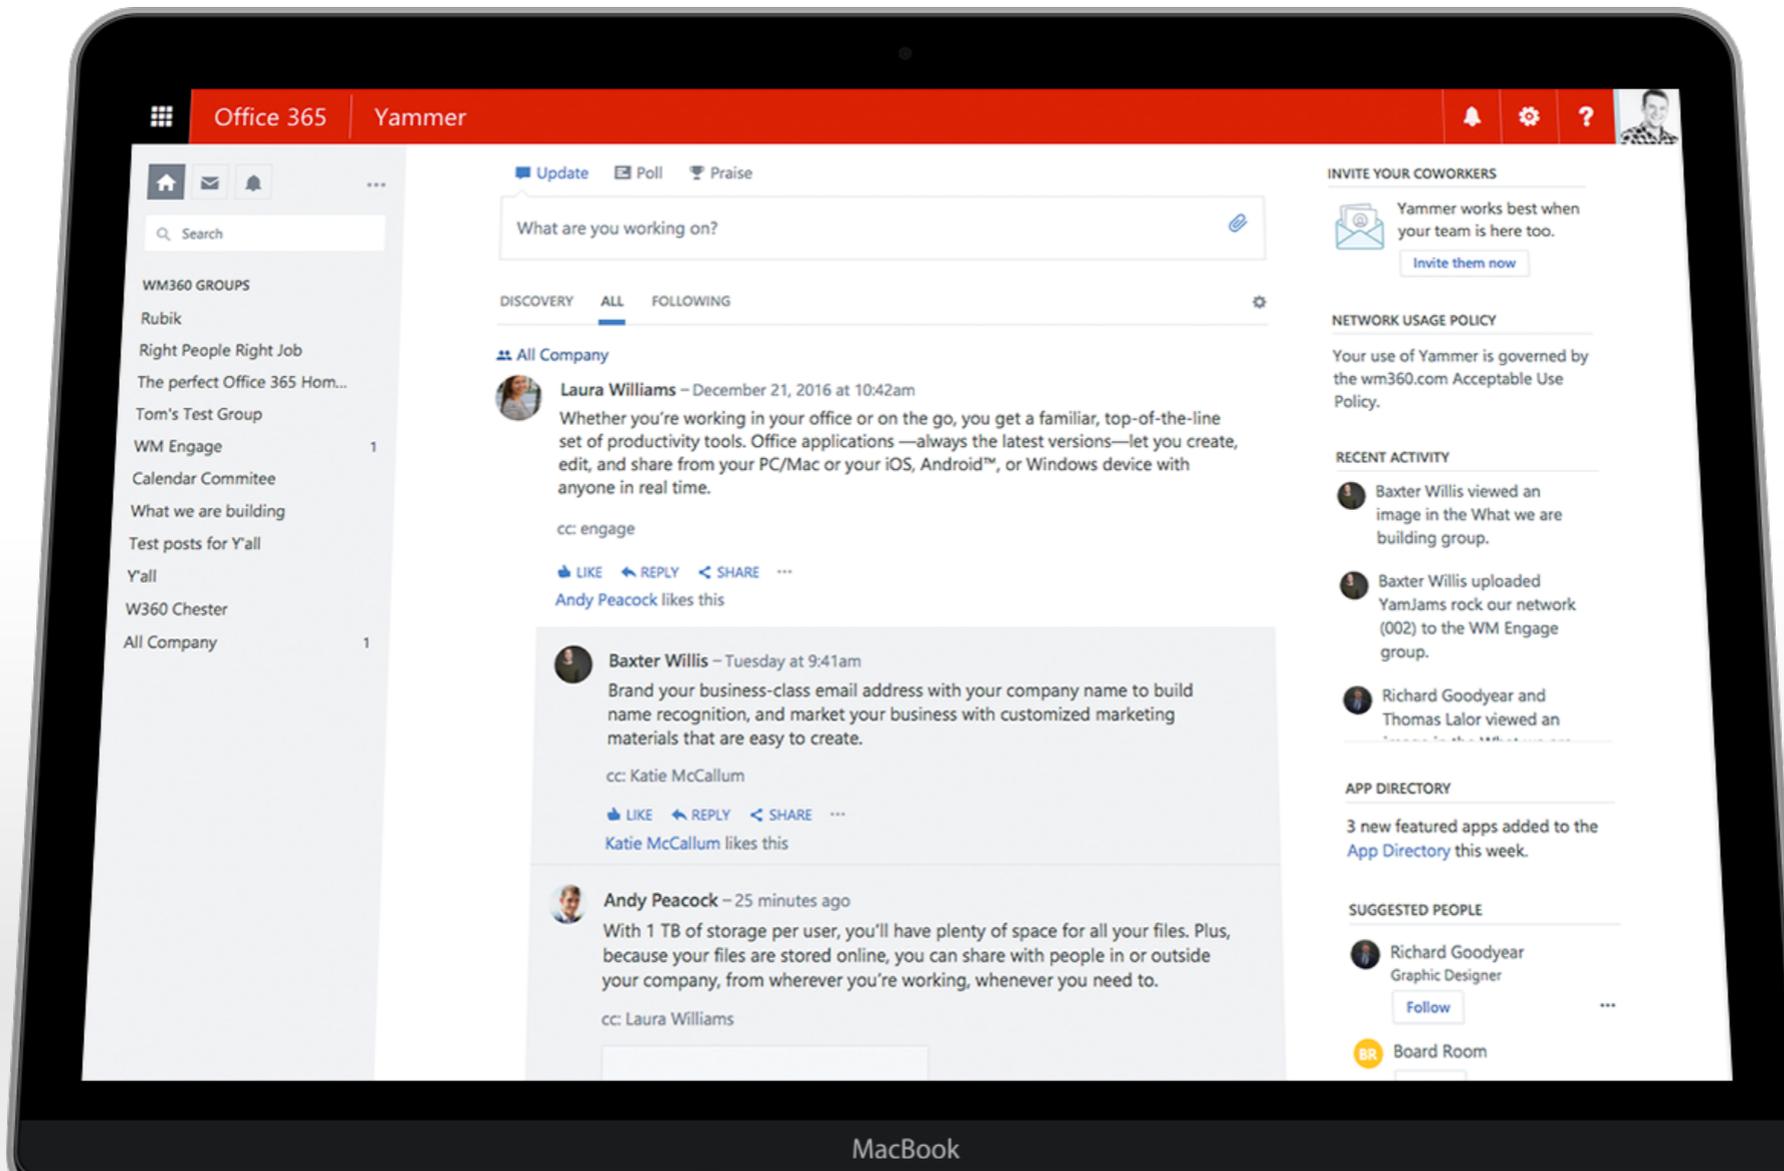

We understand that for an intranet to work well, it's got to work for everyone. We'll get to know you, your company and your employees - it's our mission to create a user-friendly intranet that your employees will love. We regularly exceed our client's expectations and we can't wait to do the same for you.

There are lots of options available to ensure your intranet is unique to your company.

Digital workplace built on Office 365 and SharePoint

Yammer feed for great collaboration and conversation

Employee collaboration.

Making connections across your company.

We believe that people work better together. As part of your intranet, we will create areas where colleagues can come together to collaborate, share knowledge and work on documents.

PROJECT

Business solutions.

If you've got a problem, we'll help you find the solution.

Whatever your business needs, we can help you to use Microsoft SharePoint to create a business solution that, put simply, works.

Our SharePoint Consultants have the skills, technological expertise and experience to help you find the solution to any problem.

Our technology knows no limits - whether you need an automated system to help a process run more efficiently, a way to easily train new employees or an application to help your employees put forward ideas to the CEO, we can help you bring your ideas to life.

Mobile-friendly technology.

Keeping you connected when you're on the move.

Of course, we know today's business world requires you and your employees to be constantly on the move. That's why we ensure all our intranets and business solutions work across a variety of technology mediums to ensure you can stay connected wherever you are.

Helping you to connect with your employees.

“

“I have never felt so globally connected.”

Client Quote...we'd tell you the company but it's a secret!

Engage.

Are you ready to get engaged?

Our Engage Team brings together technological know-how, creative flair and clear communications. We're experts in communicating and can support the launch of your new technology in the workplace. We make sure your employees are fully-trained, prepared and excited to use their new technology.

Collaboration is the key to success.

UX Design.

Designed for people, by people.

User Experience (UX) Design not only looks good, it empathises with the challenges a user may face and overcomes these challenges so it feels good to use. We think about the behaviour of the users and gain a better understanding of how they interact with the products we create. This results in cutting-edge design that understands the user's needs and responds to them.

Support.

We're always on hand to help.

When you work with us you can be confident that our Support Team will always be responsive to your requests and ensure everything runs smoothly at all times.

Hello Jenny 😊 How can I help you today?

Hello, the expenses business tool needs to include a new tab for reporting. Please could you look into this for me asap.

No problem at all, I'll get one of our SharePoint Developers to look into this for you right away.

THANK YOU! THAT WAS QUICK!

We aim to please Jenny 😊

Get in touch.

Are you ready? We are.

Whether you're thinking about a future project or are ready to begin, we're always happy to have a chat and discuss ideas.

If you would like to speak to one of our SharePoint experts and get some advice on how to move forward, why not give us a call on +44 (0) 203 589 0555, email wm@reply.com or visit our website wmreply.com
